

Dose conversion chart U-40 to U-100 insulins

Are you using a U-40 insulin like PZI or Caninsulin? Are you sick of those big, awkward needles? Help is here! You can measure your U-40 insulin in the easy to use U-100 needles – just use this chart to convert your U-40 units to the equivalent U-100 unit marks on your syringe. So find your U-40 dose and measure it into the U-100 syringe up to the “unit mark” in the chart.

If your dose isn't on this chart, use the handy calculator on Gorb's site to do a live conversion.

U-40 units	U-100 equivalent	U-40 units	U-100 equivalent
.10	.25	2.60	6.5
.20	.5	2.70	6.75
.30	.75	2.80	7
.40	1	2.90	7.25
.50	1.25	3	7.5
.60	1.5	3.10	7.75
.70	1.75	3.20	8
.80	2	3.30	8.25
.90	2.25	3.40	8.5
1	2.5	3.50	8.75
1.10	2.75	3.60	9
1.20	3	3.70	9.25
1.30	3.25	3.80	9.5
1.40	3.5	3.90	9.75
1.50	3.75	4	10
1.60	4	4.10	10.25
1.70	4.25	4.20	10.5
1.80	4.5	4.30	10.75
1.9	4.75	4.40	11
2	5	4.50	11.25
2.10	5.25	4.60	11.5
2.20	5.5	4.70	11.75
2.30	5.75	4.80	12
2.40	6	4.90	12.25
2.50	6.25	5	12.5
